### Profile:

I am Yoav, a graduate with a B.Sc. Computer Science student at Ben-Gurion University. From a young age I explored the worlds of computers, developing a passion for game development. As early as 6th grade, I began crafting RPG games. This passion led me to pursue a computer science major in high school, where I sharpened my programming skills using **C#**. I have a strong passion for this field and am eager to continue my studies further.

### Education:

- **B.Sc. in Computer Science from Ben-Gurion University (2021-2024).**
- **High school diploma with honors in Computer Science.**

### Projects:

- **Game "SET":** programmed by **multi-threading** in **Java**.
- **Client – Server:** the Server was programmed in **Java** and the client was programmed in **C++**.
- **Encrypt - Chat:** A **Python**-based **Flask** application with a browser interface using **HTML** and **JavaScript**.
- **Calculator:** Basic calculator programmed in **java** using **JFrame**.
- **Shell:** A basic shell implemented in **C** for the **Linux** operating system.
- **Portfolio:** Portfolio website built using **React JS**, **JavaScript** and **CSS**.

**Experience:** Travel security guard responsible for ensuring safety and security for travellers within the country.

**Skills:** C, C++, Java, Python, NodeJS, Git, .Net, C#, JavaScript, AWS, HTML, CSS, SQL, OOP, Linux, React.

**Military service:** Full service, soldier in combat unit "Kfir", IDF (2016-2019).

**Languages:** Hebrew: Native | English: Professional
