Professional Experience

CIPIA VISION, Supply Chain Manager • Herzliya • 2022 to 2023 (Contract)

- Collaborated with Marketing to streamline customer order processing.
- Generated inventory and logistics performance reports
- Managed end-to-end procurement, including RFQs, purchase orders, supplier communication, and shipment tracking.
- Produced financial reports in coordination with the finance department, ensuring timely payments to suppliers and accurate customer invoicing.
- Led international shipping operations, managing shipments from a Taiwan free trade zone to global destinations and stock imports to Israel.
- Established an efficient safety stock in Israel, improving customer service and reducing costs.

FABRIC, Logistics Coordinator • Tel Aviv • 2020 to 2021

- Solely pioneered and established the Logistics Coordinator role for the professional service group.
- Leveraged logistics expertise to drive logistical operations, including the coordination of Bill of Materials (BOM) for fulfillment centers.
- Bolstered logistics by strengthening supply chain functions and defining processes such as delivery procedures.
- Maintained the service spare parts inventory for global sites.
- Set a detailed service department logistics dashboard for real-time resource tracking.
- Played an instrumental role in driving site shortages to zero.

C-VISION GROUP, Customer Service & Supply Chain Associate • Caesarea • 2017 to 2020

- Skillfully orchestrated all supply chain phases ranging from quotations to invoices and collection.
- Established optimal service standards and ensured customer satisfaction by expediting shipments and promptly resolving problems.
- Frequently engaged with local government authorities regarding import permits and applicable regulations
- Performed estimations of global procurement profitability and expenses
- Issued purchase orders and accurately processed invoices.

FLOWER BOARD, Export Coordinator • Tel Mond • 2014 to 2016

- Prepared export documentation for approximately 170 variety agricultural export shipments per month.
- Established and maintained export database and analysis reports that aid in obtaining educated decisions, gaining a high-level picture, and improving credit terms due to reduced payment processing time.
- Conducted weekly export forecasts based on the previous year and current season and organized shipments accordingly.
