## Work Experience

### Technical Support, BEZEQINT

2014 - 2017

"Senior Technician, BEZEQINT, January 2014 - November 2017. At the beginning of my career with the company, I worked as a technical representative in the private sector department for approximately 3 years, which included:

- Troubleshooting internet connectivity issues
- Connecting to routers
- Connecting to range extenders
- Email configuration I advanced to the position of Expert Representative, which involved:
  - Resolving complex issues with various routers
  - Advanced email configurations
  - Providing support for small business customers
  - Advanced configurations of different router types I further progressed to become a Senior Technician in the private sector department, which included:
    - Assisting company representatives in resolving issues
    - Handling small business server and router issues
    - Supporting IOT devices
    - Managing calls with customer managers
    - Ensuring proper management of representatives during configurations."
