ACADEMIC HISTORY

Hackeru College, Haifa, Israel | 2020 – 2022 - Graduated from a comprehensive web full stack course with honors, a final grade of 90.

Software Practical Engineer Ort Braude College, Karmiel, Israel | 2018 - 2020 - Graduated a software engineering program with honors, a final grade of 86

**Projects**

Graduation Project | Ort Braude College

<https://github.com/wakedalaa7/SmartSystemMarket/tree/master>

Smart cashier machine: The project includes different interfaces, each with its different functionalities, for customers, for employees and for managers.

The system is built with convenience, efficiency, and ease of use in mind for the three types of users... Which will especially allow the manager to effortlessly control the business from their computer. I used C# to write the program using Visual Studio IDE, database managed by SQL server manager.

Graduation Project | Hackeru College

<https://github.com/wakedalaa7/waked>

An online store where the user can choose mobile devices, view them, buy them, and add them to basket... I have implemented PayPal to be used as the payment method.

Used: FRONTEND, NODE JS, TAILWIND CSS, REACT with TYPESCRIPT, MONGO DB, BACKEND
