## Professional knowledge

### Software Languages and DBs:

- C
- Java
- C#
- SQL
- PostgreSQL

### Operating Systems:

- Windows
- Linux (Ubuntu)

### IDEs:

- Visual Studio
- Eclipse
- Blue J

## Language

Hebrew - Mother tongue

English - High proficiency

# Elisheva Fisher

I'm a CS student in my 3rd year, seeking a SW developer position in a dynamic company where I can both develop my skills and contribute to. I'm looking forward to collaborating with others as part of working on interesting and challenging problems.

I'm a quick learner with strong problem solving abilities. I'm creative, tend to pay attention to details, and am able to stay calm under pressure while delivering.

## Education

- **2021-current: BSc in Computer Science at the Open University**

Degree completion date: February 2025

- **2018-2021: 'Beit Yaakov Netanya' High school**

I graduated with an average of 95

- 11 units in Computers
- Final Project - Attraction management
  - Developed in C# (in Visual Studio)
  - Supported a large number of customized operations including data management, attraction booking details, employee salaries, etc.
  - Ability to generate different types of reports on demand including reports for order history, payment reports, etc.
  - Gained extensive experience in OOP

## Project

**Custom Assembler**, "System Programming Lab" course in Open University

- Collaborated with a friend to create an assembler software program in C (in Linux Environment)
- The program received as input a custom assembly source file and translated it to machine code.
- The project contributed to understanding of hardware.
