Practical Electronics and computer engineering graduate. An autodidact team player with hands-on experience with operational systems integrity and quality assurance.

## Experience

### Practical Electronics and computer engineer *2022-Present*

- Providing technical support for problems spanning hardware, software and network systems via phone, chat and email.
- Execution of installation, testing, and maintenance of operating systems, application software, and system management tools.
- Oversaw system performance and integrity for ensure optimal functionality.
- Guided customers through system setup and provided continuous support.
- Collaborated with cross-functional teams to maintain the operational integrity of the product.

## Education

### Amal Technological College of Engineering *2020-2022*

- Digital Systems
- Digital Electronics
- Parallel Electronics
- Introduction to Electrical Engineering
- Communication Systems
- Electronic Circuits
- Python Programming Language
- VHDL Programming Language
- Modern Communication
- Computer Communication
- Control Systems
- Digital Signal Processing

### IDF-BAHAD 7 *2023*

- The 7-layers model(OSI)
- IP addresses
- Subnetting
- LAN equipment
- Switching
- Routing
- Tcp ,Udp

## Skills

- Communication protocols
- VMware, MOBAXTERM ,STM32 ST-LINK utility
- C programming language

## Languages

- Hebrew- Native
- English-Advanced
