As a highly motivated and results-oriented Junior Software Engineer, I am seeking new challenges and opportunities to further develop my skills and contribute to the success of an innovative organization. With a strong background in software development and a passion for problem-solving, I am confident in my ability to excel in a dynamic and collaborative environment.

Education

B.Sc Software Engineering

SCE College, Graduated in 2022

Experience

Frontend Developer

Circlez.ai - May 2022 to Present

Develop and maintain corporate web applications using **React**, **JavaScript**, and **TypeScript**.

Implemented the registration process for the Circlez.ai application, ensuring a seamless user experience.

Collaborate with cross-functional teams to integrate APIs and display data from external sources.

Contribute to the design and development of various components, adhering to best practices and ensuring code quality.

Projects

DoH Exfiltration (Python): Conducted research on the DNS over HTTPS (DoH) protocol and developed a two-stage machine learning classifier KNN (K-nearest-neighbor's algorithm) and malware analysis.

Task Management System (Python - Django): Created a web platform for Agile project management, enabling users to manage tasks, schedules, and deadlines. Utilized JavaScript, HTML5, CSS, and Bootstrap for frontend development. Employed Agile methodology, Jira, and Jenkins CI/CD.

Tennis Academy Web Application: Designed and developed a full-stack project using **Node.js**, **Express**, **React**, **Redux** and **MongoDB**. Implemented user-friendly features for registration, management, and participation in tennis tournaments and training sessions.

Skills

Programming Languages - JavaScript, TypeScript, Python, Java, C, C++.

Software Development Life Cycle, Design patterns, OOP, Database Design, Parallel Programming.

Full Stack Development - React, Redux, mobX, Node.js, HTML5, CSS, Django.

DataBases - Microsoft SQL, MySQL, SQLite, MongoDB.

Self-Taught Skills - React - The Complete Guide 2023 (Udemy).

Work History

Programing instructor

Hai.tech Way — July 2022 to Present

Planned and implemented integrated lessons in Java, JavaScript, Python for school students.

Languages

English - Full Professional Proficiency.
