Problem Solving

Adaptability

Self Learning

## Hard Skills

JavaScript

Node.js

React

TypeScript

AWS (Lambdas, Fargate)

GraphQL

MongoDB

Jest

Git

## Languages

Hebrew - Native

English - Fluent

Detail-oriented senior software engineer and web developer with **8 years of experience**, specializing in the **React** and **Node.js** stack. Recognized for strong responsibility and foresight through careful technical planning and a proactive approach.

Eager to secure a challenging full stack developer position where I can make a difference by building high-quality web applications.

## Professional Experience

### Full Stack Engineer

2022 – 2024

*Melio*

- ✓ Developed a Financial Risk, production-grade Node.js and React-based web application enabling internal analysts to review payments, within an AWS microservices architecture.
- ✓ Led the end-to-end design and development of a new module in the app, including writing specifications, development, and testing.
- ✓ Constructed a complex payment prioritization system, resulting in a decrease in the number of delayed payments and first-time scheduled payment delays.
- ✓ Leveraged Apollo GraphQL and TypeScript to implement optimized back end queries, saving the company hundreds of thousands of dollars.

### Full Stack Engineer

2015 – 2021

*Unit 8200, IDF*

- ✓ Developed front end UI using React and TypeScript in various web applications.
- ✓ Built Node.js, RESTful API back end while applying best practices.
- ✓ Swiftly learned and put into use an entirely new tech stack in single project.

## Education

### B.Sc.: Computer Science

2012 – 2015

*Ben Gurion University*
