## ABOUT ME

I am a 22-year-old Student in my 3rd year of a bachelor's degree program in software engineering at Sami Shimon College Ashdod. I did a matriculation. 10 units of computer science and software engineering, 5 units of physics, 5 math, and 5 English. Has extensive knowledge in software engineering and programming.

## GOALS

I am looking for a student job in the field of computers, and data systems. Responsible, curious, can learn alone and on a team, open to tackling new tasks and challenges, and develop in the field.

## EXPERIENCE

### ILC4 - Israeli Civilian Cyber Coordination Center, Remote — Supervisor (Volunteer)

Since October 7th, 2023

Skills I acquired at work:

- Managing projects
- Managing staff and coordination
- Making connections with government institutes
- Supervising and making sure staff and crew run efficiently
- Working in a high tech high-pressure environment
- Helping to manage over 1,000 staff members

### Cyber Education Center, Ashdod — Advanced Programming Lecturer

August 2022 - July 2023

Skills I acquired at work:

- Teaching a group of students in-depth topics in programming.
- More in-depth knowledge of programming.
- Cyber experience.
- Working on a programming project as a team using Git.
- New teaching skills.
- Testing and finding bugs in advanced software projects.

## AWARDS & CERTIFICATES

Building AI Course - *University of Helsinki*  
Psychotechnical - 800

## LANGUAGES

Native **Hebrew**  
Professional Working **English**

## **Aloni Ltd, Gedera — Assistant Branch Manager**

May 2018 - May 2021

Skills I acquired at work:

- Managing a team under pressure and during a lot of work.
- Adherence to schedule and working hours.
- Communication with customers.
- Using advanced "Microsoft Excel" tools

## **EDUCATION**

### **Sami Shimon College, Ashdod — Bachelor's degree B.Sc. in Software Engineering**

October 2021 - June 2025

### **American Embassy School, New Delhi India — 3rd-5th grade**

2010 - 2013

My family and I were on an errand in India on behalf of the Ministry of Defense which asked my father to move there for 3 years. I spoke only English while there and learned to speak in English at a high level.

## **PROJECTS & CERTIFICATES**

### **Building AI Course, University of Helsinki**

The "Building AI" course is hosted by the University of Helsinki, Finland. I learned how to develop an AI program and script to complete difficult life problems. I learned methods to solve unique requests using machine learning and artificial intelligence.

### **Software Engineering Final Project**

We were asked to develop software that includes a short game and an information management system stored on the server.

## **MILITARY SERVICE**

### **I was exempted from military service**

August 2020 - December 2020

After 6 months of service in the IAF, the IDF dismissed me for medical reasons.
