Or Bashan

Computer Science graduate with experience in front-end development and technical support.

Over the last six months, I have been working on a personal project to develop trading bots for the capital market.

The bots were developed in C# and Python languages.

Education

DevOps Bootcamp, Sela Group

March 2022 - June 2022

The Bootcamp is a very practical experience, we prepare projects for every subject.

During the Bootcamp, I gained knowledge and experience in:

- Linux
- Version Control (Git)
- Scripting (Python, Bash, Powershell)
- Azure and AWS Cloud
- Infrastructure as Code (Terraform)
- Configuration Management (Ansible)
- CI/CD (Azure Devops)
- Containers (Docker)
- Container Orchestration (Kubernetes)
- Monitoring & Logging (Prometheus & Elasticsearch)

B.S. Computer Science, Afeka Academic College of Engineering

October 2019 - August 2023

Work Experience

Frontend Developer, Elad Software Systems

December 2022 - January 2024

- Collaborated with web designers and back-end developers to ensure web applications met customer requirements.
- Utilized React frameworks to create interactive, responsive, and user-friendly web designs.
- Created custom UI components and implemented layouts using HTML, CSS, and JavaScript.

Support Manager, Bright Data

December 2021 - May 2022

- Giving support to customers about bright data products.
- Understanding technical issues and solving them or transferring complex issues to R&D.
- Work on Linux environment and run JS scripts.

Customer care - Private Banker, ONE ZERO Digital Bank, Tel Aviv

April 2021 - December 2021

- Providing customers with professional and technical support via chat/phone.
