Objective

Interested in an entry level position in cyber-security to extend my knowledge and experience.

Looking for a dynamic, respectful, challenging and fascinating working environment.

About Me

- creative, diligent, and love to learn new things
- love working as a team - one with each other and not one dependent on others; and keen for new experience.
- self-discipline for the goals that I set to myself.
- a junior music artist and producer and a Golanchik

Job Experience

Logistics Officer at Caesarea Medical Electronics for 1 years

- Worked at the team of 8 people, and was at the first station on the incoming\outgoing pipeline at the warehouse, dealing with over 500 shipments a day
- Inventory report generation for management and tracking

E-Commerce Webmaster at Alibaba, AliExpress, Amazon, and eBay

- Offering more than 1500 products a month in competitive pricing

Technician Support at HP Printers services Business 1/4 Year

- worked at the team of 12 people, in the center call, providing customer response.
- support and remote assistance for installing printer devices
- optimized solutions and solving new ones

Education

Cyber Security Incident Response at Tech Career Israel

- Courses in computer networks, firewalls, introduction to programming, databases security, malware analysis, digital forensics, intelligence collection, and penetration testing

Volunteering

Tutor at Ort High School for 1/2 year

- Created an open discussion for internet education and the electronic\physical threats involving the internet

Skills

Operating Systems: Windows, Linux, iOS, Android
