PROFILE

Computer Science graduate with a focus on front-end development at QNV Company. Proven skills in designing user-friendly interfaces and a keen interest in software development. Eager to contribute to innovative projects in the high-tech industry, leveraging a strong foundation in problem-solving and comprehensive solution crafting.

WORK EXPERIENCE

Shift Manager

BUG 2022-Present

- Customer-Centric Sales Expertise:**Demonstrated exceptional customer service and sales skills in a technology retail environment, effectively educating customers on various products such as phones, computers, and technology gadgets to drive sales and ensure customer satisfaction.
- Inventory Management and Merchandising:**Proficiently managed inventory levels and ensured optimal merchandising of technology products, maintaining organized displays and accurate stock levels to meet customer demands and enhance the shopping experience.

Front End Developer

QNV 2023

- Expertise in SAP UI5 Development:**Proficient in developing robust and user-friendly interfaces using SAP UI5, a vital skill utilized in the creation of intuitive applications for government systems both within Israel and internationally.
- Government Systems Development:**Specialized in crafting solutions tailored for government agencies, showcasing a deep understanding of compliance, security, and efficiency requirements inherent to the public sector.

TRAINING /COURSES

Java Full Stack developing course

2021-2022

- Comprehensive Full Stack Training:**Underwent an intensive full stack course at JHF Company, gaining expertise in essential technologies such as Java, Spring, Spring Boot, and React. Acquired a well-rounded understanding of both back-end and front-end development, enabling the creation of end-to-end web applications.
- Practical Project Development:**Actively engaged in a project focused on developing a coupon management system, applying the acquired skills and technologies. Successfully designed and implemented a functional application, showcasing proficiency in utilizing full stack technologies to deliver a practical solution
