

Throughout my degree and work experience I've focused on developing scalable and well documented code. I enjoy working collaboratively but can also run with projects on my own. Excited about the prospect of joining a product driven company and contribute.

PROFESSIONAL EXPERIENCE

Vitruue, Nes ziona (Binyanei Hamada)

July 2023 - April 2024

Automation Developer

- Developed custom scripts in JavaScript and Python, and leveraged Selenium for robust web automation. Enhanced data mapping and fostered collaboration with cross-functional teams, significantly improving workflow efficiency
- Implemented end-to-end business automation solutions utilizing Make (Integromat), API calls, HTTP, ManyChat, and a diverse array of tools to optimize workflows and enhance operational efficiency.
- Streamlined workflows, optimized processes, and enhanced communication.

Ford R&D Center, Tel Aviv

Jan 2023 - April 2023

Software Development Intern (Temporary)

- Contributed to Ford's mission to design intelligent vehicles by actively participating in the development of advanced vehicular communication software.
- Collaborated with development teams to aid in the creation of cutting-edge software solutions, emphasizing vehicle intelligence and connectivity.
- Assisted in the development of vehicle diagnostic systems, in line with the company's renewed focus on short-term profitability.
- Utilized Python, C#, and ROS (Robot Operating System) to support the development, testing, and optimization of key software applications for vehicle-to-vehicle communication and autonomous navigation.

EDUCATION

The Academic College Of Tel Aviv–Yaffo

Oct 2019 - Jan 2023

GPA: 81

Bachelor of Computer Science - Software Development

Microsoft Azure Cloud Bootcamp, Herzliya

Feb 2022 - Sep 2022

Deep study of Azure , Containers , Docker & K8 , .NET 6 & Design Patterns.

Python Full-Stack Bootcamp, Experts Academy

Dec 2022 - Apr 2023

Methods and codes, Requests & Responses, JSON, Relational Database, Python CRUD, Backup & security.

Web server & client, CGI programming, Web frameworks.

TECHNICAL SKILLS

Python (Flask) | Java | C# | JavaScript (ES6, React) | MongoDB | Cloud (Azure) | HTML / CSS
