Guy\_Franches

## ABOUT

Dedicated and disciplined Java Fullstack Developer with robust skills in React, Java, Spring, and Kotlin, complemented by hands-on experience in HTML, CSS, JavaScript, TypeScript, Python, and C. With a proven track record of delivering complex projects, including an Android app and a series review website, ChillMode, I possess a unique blend of leadership qualities and a passion for technology. Thriving in team settings and excelling in autonomous learning environments, I am committed to delivering industry-leading websites and digital experiences while constantly seeking innovation and improvement.

## SKILLS

- React.js
- Java
- Problem-solving
- Spring Framework
- Kotlin
- Time Management
- HTML/CSS
- JavaScript/TypeScript
- Team Collaboration
- python
- SQL
- RESTful APIs

## PROJECTS

### International Sport Application

- Led the development of an innovative sports application, integrating data and knowledge for a comprehensive user experience.
- Developed using Android Studio with a focus on Kotlin.
- Implemented main features and libraries including Retrofit, Picasso, Hilt, Coroutines, and Room.
- GitHub Link: [My\\_Application](#)
