## Profile

### **Electrical Engineer- Digital System Architecture and Modern Communication Designs.**

Searching for a challenging junior position, highly motivated to learn and contribute using the skills and capabilities I gained. Diligently & independently, able to operate under pressure, multitasking, and utilize time management.

## Education & Volunteer Work

### **2019 – 2023 B.Sc. in Electrical & Electronics Engineering - Computer Engineering and Communication major, Ariel University**

- Planning and programming embedded systems & Communication techniques.

### **2011 – 2014 IDF - Givati Brigade - Combat Soldier & Commander**

- Commanded and trained combat soldiers, with an emphasis on teamwork and excellence.
- Demonstrated organizational abilities, with care for fine details.
- Commended as a Sergeant Major in my last position.

‘Aharai’ – pre-military preparation program – training and guidance

## Experience

### **2014 – 2019 Operating Manager, Ron.A.D Parking**

- Operation of computerized systems – ongoing management of automated payment systems, technical problem solving & customer relationships.
- Managing teams' assignments, schedules and KPIs.
- Financial operation – supporting and leading contracts with high-level companies.

## Skills

- Programming Experience in C++, through academic courses
- VHDL, FPGA programming
- Experience in management and leadership
- Electrical experience, through academic courses
- Experience in marketing
- Highly experienced in teamwork
- Autodidact
- Hebrew – Native
- English – Fluent
