Experienced Production Planning and Control (PPC) Team Leader with a proven track record in procurement management, subcontractor management, configuration control, and transitioning from development to production. Skilled in collaborating closely with development teams, identifying suppliers and new technologies, and leading projects from inception to production. Looking to leverage my expertise in leading or joining a procurement, PPC, operations, or NPI team.

## Experience

### 2018- Today | PPC Team Leader, Vayyar Imaging

- Leading a team responsible for procurement, managing subcontractors, configuration control and moving from development to production.
- Worked closely with R&D teams to ensure smooth transition to production.
- Identified and integrated new suppliers and technologies to improve production processes.
- Led the production of over 150 different prototypes of PCBA and more than 20 EVK

### 2014- 2018 | Suppliers' manager, Israel Aerospace Industries (IAI)

- Managed key suppliers related to specific projects, ensuring timely and efficient delivery of components and services.
- Experience in managing complex procurement processes, including effective negotiation with suppliers, meeting budget and timeline targets, and ensuring quality and compliance with technical requirements

### 2010-2014 | Project Manager, Nistec

- Managed multiple projects for various companies, guiding them through the development phase to production.
- Ensured adherence to timelines and budgets while maintaining quality standards.

## Skills & Abilities

- Extensive experience with ERP systems: NetSuite, SAP Business One, SAP R/3, Priority.
- Proficient in working with Arena PLM.
- Strong leadership, team management, and project collaboration skills.

## Education
