

EYAL SILLAM

MANAGEMENT | ENGINEERING | ECONOMY | CIVIL ENGINEERING | SOCIAL SCIENCES

I've managed, planned, and executed large scale engineering projects end to end. I see the big picture and I'm very experienced in breaking things down into executable tasks.

I am passionate about technology research and how it can be implemented to create efficiencies and add value in Hi-Tech project management.

EXPERIENCE:

06-2011 – 05-2023

PROJECT MANAGER, ESHEL ENGINEERING LTD (Management and Supervision Company)

- Leads large projects management for entrepreneurs such as buildings and civil engineering with multiple systems and compliance with the schedule and budget. Also Responsible the solar projects for the Israel Railways.
- Provides professional engineering support & services for entrepreneurs and stakeholders.
- Manages and plans construction of diverse projects costing over 100 million NIS, including projects for the Israeli security services.
- Manages employees from a variety of professions, budgets, schedules, quality and responsible for implementing processes.

2003 – 2011

PROJECT MANAGER, BROSH NIR LTD (CONTRACTOR EXECUTION COMPANY)
