

Hadassah Katzav - Full Stack Developer

📞 0504131680 | 📩 hadassa050@gmail.com | 💬 [linkedin](#) | 🌐 [github](#)

Full stack developer with experience in digital design and practical experience from software development projects. During my studies, I demonstrated my ability to learn new technologies independently and implement them in projects.

With excellent spatial vision, I have proven my understanding of customer requirements and characteristics in the digital world. Using my high level of analytical thinking, I enjoyed complex algorithm courses and writing efficient and smart code.

Excellent at writing complex SQL queries and using DB's.

Looking for a full stack tech job where I can advance and realize my skills.
