LANGUAGE

- Hebrew: Native
- English: Proficient

SKILLS

- ReactJS
- NodeJS
- C
- C++
- Python
- Java
- SQL
- Windows and Linux.

PROJECTS

Ticket Swapping Website: Fullstack Project. Engaged as a Fullstack Developer with a primary emphasis on frontend technologics, I contribute to the development of a ticket swapping website within a team environment. My role predominantly centers around frontend implementation utilizing ReactJS.

Meal Type Identification: Data science project. Gathered information from allrecipes.com and applied several machine learning algorithms to predict meal types based on various features, including ingredient combinations, nutritional values, preparation time, and the number of servings.

PROFESSIONAL EXPERIENCE

2014-2017 IDF-Unit 8200:

2015-2017 Combat battalion development team

member: Wrote scripts in Python with SQL for improving the battalion's abilities. Took part in field experiments and analyzed their results.

2014-2015 Network technician: Technical support of an operational system.

EDUCATION

2021 - Present:

Third year student for B.Sc. in computer science at HIT studying in evening.

2013 - 2014

Tamam Course: 3 months course that includes hands-on experience with network protocols.

Certification as computer technician at Ort Holon.

2010 - 2013

High School diploma, including 10 points in Computer
