Summary

I'm deeply passionate about development, especially in reimagining algorithms. With experience in hardware support and quality control, I bring a meticulous approach to problem-solving. Known for my dedication and eagerness to learn, I thrive on challenges and am committed to continuous improvement

Experience

[**Intel Corporation**](#) 2021-2023

Hardware Software Technician, Team Lead

- Provided comprehensive hardware and **software lab support**, ensuring the smooth operation of Intel **CCD Lab**, and **Thunderbolt**.

- Exhibited expertise in **computer hardware** and its components, contributing significantly to the seamless functioning of laboratory activities.

- Conducted rigorous **quality control tests** using specialized lab equipment, guaranteeing hardware components' reliability and optimal performance.

- Leveraged extensive knowledge of **electronic circuits** to diagnose and efficiently repair hardware faults, enhancing overall functionality and efficiency.

- Took charge of supervising a team of **two technicians**, fostering a collaborative and productive work environment while successfully achieving project objectives.

Education

[**Frontend Masters**](#) 2023

Front End Development Bootcamp

- Proficient in **HTML**, **Javascript** for web development.
- I am experienced in **Linux** and **Windows** environments.
- I have developed [my website](#) as part of the course.

Hobbies

Delving into the intricacies of chess, and exploring its strategies and tactics, is a passion of mine.
