Summary

I am a Junior QA Engineer, with strong attention to detail. I learned how important is to be strict and a team player. I like new challenges, which made me want to learn more and more about this domain and improve my skills every day. I aim to excel in a challenging and innovative QA work environment and exercise my full potential. That's why I am looking for a company that will give me the chance to learn and develop myself as a Software Tester.

SPECIAL SKILLS AND TECHNICAL KNOWLEDGE

- I have excellent skills in communicating with team leaders, working in a team setting, organizing team projects, and managing tasks.
- I am knowledgeable in writing code and developing Python, software testing and software development, and executing test cases in different phases including GUI testing, integration testing, and end-to-end testing systems.
- I worked in a factory as an Operator of a computer machine.

EDUCATION

- Pursued QA Automation | Tech Career College (2022-2023)
- Attended computer science program course | Beit Alfa (2019)
- Studied law for three years toward a Bachelor of Science degree| University of Gondar (2016-2018)

Language Skills

- proficient in reading, writing, and speaking Amharic.
- excellent in reading, writing, and speaking Hebrew and English.
